

Global Software Expands as a Result of VisionTEK Acquisition

OKLAHOMA CITY, OK – May 31, 2011 – Earlier today Harris [announced the acquisition of VisionTEK](#). As a result of this transaction, the VisionTEK business will be consolidated within Global Software, the Harris operating division focused on Computer Aided Dispatch, Records Management Systems and Mobile solutions for public safety agencies throughout North America.

VisionTEK offers a full portfolio of mobile products and services for public safety agencies in the United States: field based reporting, electronic citations, and message switching to provide interoperability between records management systems and mobile field units.

"We are pleased to have the VisionTEK employees and customers join us as part of our Global division and as part of Harris", said Jeff Pugh, Executive Vice President of Global Software, "and we are excited to expand our product offering to include the FrontLine mobile solution. We believe there is tremendous long-term potential for this product suite and look forward to building on the success that VisionTEK has enjoyed in the mobile market for so many years."

Jerry Canada, General Manager of Global Software commented, "VisionTEK is a significant milestone in the Global Software's growth plan as it deepens our solution offering in the mobile market. We will look to complement the VisionTEK product portfolio with our own computer aided dispatch and records management systems solutions and continue to compete for new business."

Global will maintain the current office in Broomfield, CO where it will continue to develop the VisionTEK mobile products and provide support to its customers.

Forward Looking Statements

Certain statements herein may be "forward looking" statements that involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of Constellation or the industry to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. These statements reflect current assumptions and expectations regarding future events and operating performance and speak only as of the date hereof. Forward looking statements involve significant risks and uncertainties, should not be read as guarantees of future performance or results, and will not necessarily be accurate indications of whether or not such results will be achieved. A number of factors could cause actual results to vary significantly from the results discussed in the forward looking statements. These forward looking statements are made as of the date hereof and Constellation assumes no obligation to update any forward looking statements to reflect new events or circumstances.
